North Palm Beach, FL 33408

Health Information Research, Inc. (HIR)

is a 501c3 non-profit organization offering free medical information research to patients who seek a better understanding of their disease and its treatment options. Founded in 2002 by Executive Director, David S. Most, PhD, HIR serves as an objective resource for patients – helping them to understand their status, reviewing pathology reports, discussing proposed courses of therapy, and examining other options.

Through the generosity of granting institutions as well as contribution from individuals, HIR is able to provide this service free of charge to patients throughout the United States.
